The Amanguel Expedition, bound from San Antonio to Santa Fe and back again in the spring of 1808, did not get under way as early as usual on the morning of May 17. One of the Indian guides that morning was missing a small iron chain which he had mounted on a quirt, so Captain Francisco Amanguel ordered a search of every soldier's belongings, as well as the baggage of the entire train. The missing object was discovered in the possession of Private Faustino Lozano. Amanguel immediately ordered assembly sounded, and the soldiers formed in a circle. Beyond them, watching impassively, were a number of Comanche warriors who had gathered to see Spanish justice at work. Lozano was brought to the middle of the circle, stripped of his shirt, and tied to a post. A lieutenant stated the crime in a loud voice for the benefit of the assembled

An Invitation to Discover for Y

THE PEOPLE ★ THE LAND

of the American West

The tapestry of history is a joy to behold when it is displayed effectively and properly. In the pages of *The American West*, you view that tapestry in a magnificent showcase that lets you observe history in a clear light. You get to know the people, the land and the culture of our American West. You understand how they all become threads intricately woven to form major patterns in the development of our country.

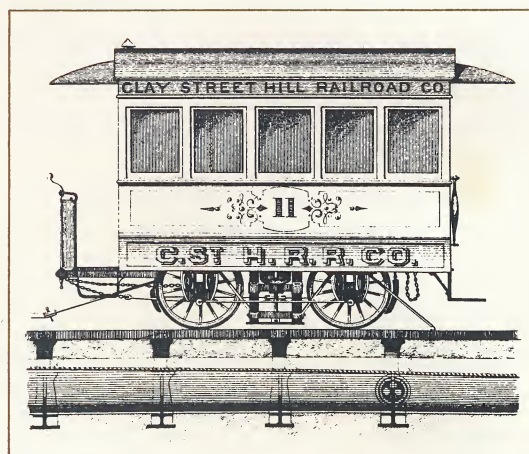

The articles you enjoy in *The American West* cover a wide variety of subjects — politics, inventions, Indians, cowboys, conservation, geography, nature, war, art, architecture, humor, horses, fashions, farming. You read about the struggles of the settlers, against the elements and against themselves — about the religious statuary of the Southwest and the early lumber camps of the Northwest — about the first California prospectors and the last of the Buffalo Indians. You find here, too, the latest chapter of Western history — the efforts to preserve its beauty and history today.

Dugouts in Osborne County, Kansas, in the early 1880's.

yourself AND ★ THE CULTURE

You see history, too, in the lively pages of The American West. Each issue is filled with original photographs and daguerreotypes, colorful paintings and sketches, old maps and documents—all faithfully reproduced in brilliant detail by fine printing on quality paper.

(The photograph on the upper right was taken in 1868. It shows a group of prominent Sioux Indians gathered at Fort Laramie. On the lower right is the original drawing of the first San Francisco cable car done by A. S. Hallidie, inventor of the system.)

WHEN YOU SUBSCRIBE TO THE AMERICAN WEST...

The American West is sent to you four times a year, in February, May, August and November. It is printed on rich, smooth Patina paper and sturdily bound for long life. Each issue is richly illustrated, often with photographs and prints taken from the ar-
